Our Families.
Our Youth.
Our Future.*

A Lifetime of Commitment to Tsawwassen First Nation

Dear TFN Members,

My name is Kyle Williams, and I am proud to have called Tsawwassen First Nation home my entire life.

As the son of the late Wally Williams and Joanne Williams, I was raised with a strong connection to Tsawwassen First Nation, its people, land and waters. My family roots include my late grandparents, Harold and Dorothy Williams, and my late great-grandparents, August Williams and Bertha Point.

From a young age, I have been a fisherman and crabber, experiences that have given me a deep appreciation for our traditions and the importance of protecting what we have for future generations.

I am also a longshoreman, a husband, and a proud father of three daughters. I have been married to my wife, Tiffany, for 15 years, and family and community have always been an important part of my life.

WHY I AM RUNNING

I am running because I care deeply about the future of Tsawwassen First Nation and the people who call it home. I have spent my life connected to our community, our waters and our way of life, and I want to give back by serving our Members.

I believe our Nation is strongest when we look after one another, respect our Elders, listen to our Members and create opportunities for our children and families. I am ready to listen, work hard and stand up for what matters to our Nation and our future.

MY COMMITMENT

Supporting Our Children & Youth

I believe every child and young person in Tsawwassen First Nation deserves to feel supported, encouraged and proud of who they are.

As a lifelong fisher and crabber, and as a father, I have seen how sharing knowledge, values and traditions across generations can strengthen identity, confidence and healthy families.

I am committed to supporting youth in whatever paths they choose; through culture, education, recreation, mentorship, leadership and community programs. I will listen to youth and families and work to ensure our young people have the opportunities and support they need to grow and build a strong future.

Community Health, Safety & Well-Being

I believe every Member and family should feel safe, supported and connected to our community, whether they live on TFN lands or away from home. Mental health and well-being are important parts of a healthy community, and everyone should know where to turn when they or their family need support. I want to listen to our Members, understand their concerns and work toward practical solutions that strengthen our community. We need to support our families and Elders, improve communication and connection among Members, and build a community where people feel safe, respected and heard. Our community should be a place where people look out for one another, where families feel supported and where every Member can feel proud to call Tsawwassen First Nation home.

Protecting Our Fishing & Crabbing Rights

As a lifelong fisherman and crabber, I understand how important fishing and crabbing are to Tsawwassen First Nation — for our food, culture, traditions and community. Our waters and fishing rights are a foundational part of who we are. As other Nations and interests use or seek access to these waters, we must stand firmly in protecting our rights, our territory and the interests of our Members.

We can work respectfully with others while still being clear about who we are and the importance of protecting what belongs to Tsawwassen First Nation. I will stand up for our fishing and crabbing rights and work to protect them for our children and future generations.

Building a Strong Future for Our Families

As a proud father of three daughters, I want to help build a community where all of our families and generations — from youth to adults to Elders — can thrive, and where future generations have opportunities to live, work and remain connected to Tsawwassen First Nation.

I want to see a community where families can build a good life, our Elders are valued, our youth have opportunities to succeed and our Members can continue to feel connected to our culture, community and home.

A STRONG COMMUNITY. A STRONG FUTURE.

I have spent my entire life here. This is my home. I want to help protect what makes Tsawwassen First Nation special while building a strong future for our Elders, our families, our children and generations to come.

I would be honoured to earn your support.
